SIXTH WEEK OF THAW'S TRIAL OPENED IN NEW YORK MONDAY WITH EVELYN ON THE STAND

Rumors of Sensational Character Were Rife
Before Court Convened to Hear
the Evidence

One of Them Was That Jerome Had Decided Definitely
to Request a Lunacy Commission.

WITNESS ADMITS THAT BARRYMORE PROPOSED

And Scores a Point When She Looked State's Insanity
Expert Squarely in the Eyes and Said She Had
Never Seen Him Before.

New York, Feb. 25.—A persistent rumor about the corridors of the criminal courts building at the time of opening today, was that before the day was over, District Attorney Jerome would apply for a lunacy commission to sit on Harry Thaw. Jerome was said to have made this statement privately before court convened. With the proceedings now underway it is impossible to get to the prosecutor to secure a confirmation.

Interest in the Thaw trial reached its height today when the sixth week was opened with the prospect of Evelyn Thaw submitting to District Attorney Jerome's heaviest fire. Harry Thaw was greatly amused to find in his mail a postal card bearing a drawing of the jury in their shirt sleeves engaged in a violent wrangle. Justice Fitzgerald was shown in an excited attitude trying to pacify the jurors. Thaw laughed over the card and showed it to those about him. He received 32 letters today including two special deliveries.

Evelyn was called as the first witness. She came in with a springy step and seemed well, except that her eyes had a sad look. She has borne up wonderfully, but evidently she was prepared to finish her fight. Her costume was unchanged. Jerome began his examination by asking Evelyn if while she was living in Alhambra she had not had trouble with her mother, and run away with another girl. Evelyn denied this and Jerome dropped the subject.

EVELYN SCORES VICTORY.

Some of the mental torture which Evelyn, or expression, declared she the first half of today's session of the trial resulted in another triumph for her on the stand in her husband's behalf in answer to the cross examination of Jerome. What has been counted as one of the keenest shafts of the prosecution was blunted by the coolness of the witness, when, looking straight into the eyes of Dr. Carlton Flint, and without a change of color or expression, declared she had never seen the man before. This little climax came following a series of questions from the prosecutor tending to bring out the fact that Evelyn had gone to Dr. Flint at the solicitation of Jack Barrymore, the actor, and a former sweetheart. Evelyn admitted she had kept company with Barrymore and that he had proposed. She denied emphatically the operation on which the prosecution had expected to score a point.

Next in importance in his victory, was the explanation of the apparently damaging cablegram she sent to White from France. Evelyn declared that the secretary of the American embassy in London, in 1903, was annoying her mother, and it was to stop this that the cablegram was sent. She said they had no connection with her European travel with Thaw. In addition she declared that Thaw had absolutely refused to use the letter of credit provided by White, and had declared that it was poison. Jerome was relentless, but the witness was unruffled by his severity and at a crucial point neatly sidestepped a trap into which the prosecutor sought to lead her when he handed a check not

admitted in evidence. She brought the prosecutor up with a sharp turn by reminding him that she had not previously seen the paper.

THAW'S SABBATH WAS UNHAPPY

As He Was Haunted by the Fear of a
Lunacy Commission, But Har-
tridge Reassured Him.

New York Feb. 23.—It is said that as recently as March, 1906, three months before Harry Kendall Thaw shot Stanford White—the latter frequently lurked about the Hotel San Jacinto in an effort to renew his acquaintance with Evelyn Nesbit Thaw. He invoked the aid of Miss Hattie Forsythe to arrange a reconciliation

CONGRESSMAN BEMAN G. DAWES 'FORMER NEWARK MAN IN WRECK

Congressman B. G. Dawes, of Marietta, formerly of Newark, was in the Pennsylvania wreck, near Johnstown Saturday morning, but escaped with slight injuries. He thus describes his experience.

Harrisburg, Pa., Feb. 25.—Congressman Dawes, who was en route to Chicago in the second sleeper of the Pennsylvania 18 hour flyer which was wrecked near Johnstown Saturday morning, returned to Washington Saturday. Mr. Dawes was suffering considerable pain and discomfort when he arrived here, and was placed on a chair and taken to the baggage room where he waited for a train to Washington.

"I was asleep and was awakened by a loud noise," he said. "There was a crash, glass flew in every direction and I realized that the car in

between him and the wife of Thaw, and when Miss Forsythe tricked him he sent her away to California. These facts were sworn to by a witness in the Thaw case, and printed to the public for the first time. George Pollock is the new witness. He was an elevator boy in the San Jacinto during the time when Miss Forsythe had apartments there.

C. W. Hartridge, counsel for Harry K. Thaw, was in conference with the prisoner, and for an hour the two discussed various matters, among them, it was said, the possibility that the prosecution might seek to interrupt the cross-examination of the defendant's wife. It had been reported, though without apparent authority, that District Attorney Jerome would shift his attack on the defense and insist that the direct examination of Mrs. Deemar and the alienists for the defense, be concluded before the state continued its cross-examination of Mrs. Thaw. This move would be construed as in the direction of an application for lunacy commission to examine the prisoner. This report is said to have reached the prisoner and caused him no little uneasiness. Mr. Hartridge, however, was able to assure him that Mrs. Thaw's examination would be completed before the defense called other witnesses. Stipulation to this effect had been given, the lawyer said. The prisoner is reported as having spent a restless, unhappy day. It is well known that he desires nothing less than to undergo a mental examination.

That Thaw's fears have some basis in fact, was evidenced in a statement credited to a court official. According to this man, Mrs. William Thaw, the mother of Harry, 10 days ago approached the district attorney through friends and expressed her willingness that a commission in lunacy be appointed. The mother's state of mind, it was said, was the result of having read the harrowing story told on the witness stand by her daughter-in-law, and the merciless cross-examination by Jerome, combined with the natural shrinking she felt from taking the witness stand herself. Mr. Jerome, on his part, wishes to avoid at this time such drastic action as asking for a lunacy commission. He has declared in court, however, that if he could be convinced that the slayer of Stanford White was insane, he would drop the prosecution.

Sudden Summons.
Frederickton, N. B., Feb. 25.—Jabez Bunting, Snowball, lieutenant governor of New Brunswick, dropped dead while on his way to attend service in the cathedral. His death was due to heart disease.

Over 200,000 pounds of paper is used in this country yearly for the manufacture of cigarettes.

WHEN EVELYN NESBIT THAW GAVE WAY TO HER EMOTIONS.

MRS H-K THAW ON VERGE OF A BREAKDOWN.

NEW YORK, Feb. 25.—Pressed pitilessly by Mr. Jerome, the wife of Harry Thaw on one or two occasions lost the calmness that has marked her demeanor as a witness and showed signs of a breakdown, rallying soon, however, as new tactics were employed by her questioner.

DECISION EXPECTED IN BAILEY'S CASE

Austin, Tex., Feb. 25.—It is expected that the findings of the legislative committee investigating the charges against United States Senator Joseph W. HUNGER STRIKE OF POLISH STUDENTS

Vienna, Feb. 25.—A large number of Ruthenian university students, who were arrested recently at Lemberg and imprisoned for refusing to take the oath in the Polish language, adopted a hunger strike, refusing all food or drink. After three days they became so weak that the doctors in attendance declined to accept responsibility for their lives, and as a result the students were victorious. Even then the students declined to quit the prison because five of their ringleaders were detained, and barricaded themselves to prevent their forcible ejection. In the meantime there was a great Ruthenian demonstration outside the prison, and finally the ringleaders also were liberated on bail. Then all the students consented to leave the prison.

CHRISTIAN SCIENTIST ELECTROCUTED BELIEVED IT WAS A "TRANSITION"

Ossining, N. Y., Feb. 25.—Holding steadfast to his faith in Christian science, to which he was converted after his imprisonment in Sing Sing, George Granger was electrocuted at 6:02 today for the murder of Chas. Lutz, a Dutchess county dairyman. He was very calm, showing to the last his conviction that the death current was to be the means of his transition to higher realms. Four times the current was applied before the doctors were satisfied that he was dead, though there was not

PRESIDENT ZELAYA'S CAUSE OF CONFLICT

New York, Feb. 25.—The following dispatch, dated Managua, Nicaragua, has been received from President Zelaya: "We went to war because Honduran forces attacked our small garrison on the frontier, looting, burning and killing. We demanded satisfaction, and it was denied us; we agreed to accept whatever decision the arbitration court might render, but President Bonilla of Honduras dissolved the court by withdrawing the Honduran arbitrator. Nicaragua has triumphed in four combats over the Honduras forces without suffering one defeat. Our forces are today in the territory of Honduras."

Meadville, Pa., Feb. 25.—Elma Dare, charged with kidnaping George Rhodius, said to be feeble-minded, at Indianapolis on Jan. 21 and marrying him in Louisville, Ky., was arrested at the Todd sanitarium, Cambridge Springs, by Deputy Sheriff Paul Marshall. Rhodius was with the woman and the two were traced to Cambridge Springs by Detective Harper, former police chief of Louisville, employed in the case by John W. Claypool of Indianapolis, attorney for the Rhodius estate. Half a dozen detectives appeared on the scene as soon as the woman was placed under arrest, but Deputy Marshall will bring her to Meadville, where requisition will be made for her return to Indianapolis. Mr. Rhodius is a millionaire.

STUPENDOUS OPERATIONS OF HARRIMAN

Given the Interstate Commerce Commission Detail by Detail

By the Magnate Himself Who Outlines the Policy Pursued by Him in

THE GREATEST STOCK DEAL

Of Modern Times, by Which He Gained Control of Three Transcontinental Railroads and Became Interested in Others.

New York, Feb. 25.—E. H. Harriman before the interstate commerce commission in the Federal building here today unfolded the story of one of the most gigantic stock speculations of modern times.

Detail by details he explained how, starting with the ownership of the Union Pacific railroad, he had acquired the control of the Southern Pacific, Northern Pacific and half a dozen other of the great railways of the country.

Commissioner Knapp presided. Commissioners Clements, Lane, Prouty and Harlan were the others present. F. R. Kellogg and C. A. Severance were attorneys for the commission. Harriman had his personal counsel, Paul D. Cravath as well as John F. Milburn and other railroad lawyers.

As soon as the session was called to order Harriman walked briskly to the witness chair. Helped by questions from Attorney Kellogg and by reference to a mass of railway reports he unfolded the story of his mastery of American railways.

It began with the issue of the Union Pacific of one hundred million dollars of convertible bonds which were later turned into stock for the same amount. On top of this \$100,000,000 the Oregon Shortline, also controlled by Harriman, raised \$45,000,000. Through Kuhn, Loeb & Co., 750,000 shares of Southern Pacific stock were purchased for \$11,000,000 and \$61,000,000 was used to purchase certificates in the Northern Pacific. Eighteen million dollars more was used to pay for improvements on the Southern Pacific and stock subsequently taken for this amount.

This was the first step and gave Harriman control of three transcontinental lines.

Harriman then told the commission that when the Supreme court dissolved the great Northern merger he found his Great Northern and Northern Pacific stock together worth about \$100,000,000. The market value of this subsequently increased.

The income from the Great Northern and Northern Pacific stock, together however, was small, only about \$2,000,000 a year. He therefore sold this stock, realizing \$116,000,000. He said he had reinvested \$85,000,000 of this and still has \$30,000,000. By selling the old stock and buying new stock, the stock income from the Union Pacific and Oregon Shortline together, had increased from \$3,000,000 to \$6,500,000. This was developed by testimony that it was this money which helped Harriman to further conquests. He bought into Illinois Central, Baltimore and Ohio, Chicago and Alton, Milwaukee and St. Paul and other railroads.

Meyer Honored.

Rome, Feb. 25.—King Victor Emmanuel has signed a decree bestowing upon George Von L. Meyer, the newly appointed postmaster general in President Roosevelt's cabinet, the grand cordon of the Order of Saint Maurice and Saint Lazarus, as an expression of appreciation of his work when ambassador to Italy.

Shocked by Wireless.

Wilkesbarre, Pa., Feb. 25.—The Rev. Joseph Burges, the Slavonian Catholic priest of this city who has invented a wireless telegraph system, was severely shocked while experimenting upon a new wireless underground system. He was prostrated, and physicians worked over him for some time. He will recover.

KING AND QUEEN OF ENGLAND REVISIT VERSAILLES.

FROM THE ILLUSTRATED LONDON NEWS.

King Edward and Queen Alexandra, on February 4 "motored" to Versailles in company with Mr. Detaille, the battle painter. At the palace they were received by the curators, M. de Nothac. They were incognito and a guide offered his services. "I don't think we need a guide," said the King, smiling. The Queen recalled Marshall McMahon's famous ball, given in the Hall of Mirrors in 1878. The absence of a number on the King's car greatly distressed the Paris police. The car was stopped in the Champs Elysees, and again in the Avenue de l'Opera.

RAILWAY AFFAIRS

B. & O. Agents to Organize.
The B. & O. station agents are working on a plan of organization for the purpose of bettering their condition in regard to salary and hours. East of the Ohio river the B. & O. agents are thoroughly organized and a movement is on foot now for bringing about the same state of affairs west of the river. A meeting was held at Garrett, Ind., Sunday, which was attended by nearly one hundred and fifty agents. The meeting was enthusiastic and the work of organization will be completed within a short time.

Arc Lights For Coaches.

Arc lights for coaches were given a successful test at Chicago Thursday by a western road. The lights are fed from a 50 cell battery, weighing about 1,300 pounds, stored from a battery in the terminal yards and charged with sufficient power to give light for a 50 hour run. Three lights are placed in a car. This is the first installation of the arc lights, although incandescents have been used several years.

May Not Curtail Service.

Passenger officials of railroads operating in Ohio are reticent regarding the report that passenger service in that state is to be reduced to a minimum on account of the two cent passenger fare law. Officials of the Lake Shore assert that passenger trains on that road have been operated at a loss ever since the new rate became effective and it was reported that passenger officials representing the various roads in that state, including the Pittsburgh & Lake Erie, the Wabash, the B. & O. and the Pennsylvania lines, held a meeting last week and decided to curtail passenger service. Local officials claim to be ignorant of any such meeting.

Lake Shore officials claim that a passenger train must earn at least 50 cents a mile to pay the wages of the train crew and for the fuel used, and that a passenger train must earn \$1 or more a mile in order to make a profit. According to the statement many of the Lake Shore trains are earning on an average of 13 cents a mile and the officials assert that all non-paying trains will probably be taken off the schedule, the change to

Indigestion and Uric Acid.

Indigestion is the cause of nearly 95 per cent of all human ills, it causes uric acid in the blood, and is the main cause for nearly all blood diseases, such as catarrh, rheumatism, neuralgia, eczema, this poison acid is made from the fermented or sour food which is allowed to stay in the stomach and not properly digested. "You cannot get well of any disease unless you have good pure blood, and pure blood must come from good nutritious food, and that properly digested. (No medicine will make blood). If the digestive organs are too weak to do their work, then they must be assisted. Dr. Jackson's Digestive and Liver Powders contain every ingredient found in the healthy digestive organs, and assist the weak organs to do their work properly. Being in powder form they dissolve as soon as they reach the stomach and give instant relief, they throw off the acid, digest the food and stop fermentation.

DR. JACKSON'S DIGESTIVE AND LIVER POWDERS cured Miss May Duval, Woodfield, O., of indigestion, and its attending ills. Miss Duval says, "that she suffered from indigestion, loss of flesh, weakness, nervousness, no appetite, but after taking Dr. Jackson's Digestive and Liver Powders she can truthfully say that it has been the greatest benefit to me of anything I have ever taken. THIS AND THAT

The dog show was a great success. Long live the dog!

One may point to both a moral and immoral in the Thaw case.

Absinthe makes the heart grow weaker.

The Missouri legislature intends to make the official pronunciation of the name of the state "Mis-seo-ry." This is all right but people from that neck of the woods will still have to be shown.

The youngster who plays truant, who hops trains, who smokes cigarettes and does other things calculated to interfere with the working out of boys into first-class citizenship material, is sure to be brought into the juvenile court.

The real estate business in Newark is looking up, lots of inquiries for houses to rent, and numerous parties from other places are looking at properties intending to buy. Real estate men anticipate great activity as soon as spring opens up in good earnest.

PHILO.

T. T. Buell, formerly of Licking county, now pastor of Philo circuit, Muskingum county, had the misfortune to lose his horse. The people of Caneville and Bethel societies expressed their sympathy for their pastor with a purse of \$100.00 to aid in the purchase of another horse. The pastor's salary was raised from \$600 to \$700, an advance of \$100 over any previous year in the history of the church.

Forty persons have been received into the church since conference.

ANOTHER WRECK ON THE "PENSY"

EXPRESS TRAIN RAN INTO OPEN SWITCH IN PHILADELPHIA YARDS.

Five Passengers Were Injured—Condition of Saturday's Victims is Favorable.

Pittsburg, Feb. 25.—The Philadelphia express on the Pennsylvania railroad ran into an open switch in the yards at Sixteenth street. The New York express, due here at 7 o'clock, narrowly escaped running into the Philadelphia train, and caused a panic among the already frightened passengers. One coach on the Philadelphia train was telescoped and two others derailed. The train was late and was running faster than usual through the yards. It was learned that five women passengers were injured, sustaining cuts and bruises. They were given medical attention and later continued their journey west.

Condition of the Injured.

Pittsburg, Feb. 25.—The condition of the passengers injured in the wreck of the Pennsylvania special near South Fork is reported from the Altoona, Pa., hospital and the Allegheny General hospital in this city, as being excellent. John F. Kline, postmaster of Joliet, Ill., who is the most seriously injured, passed a favorable day. In addition to many cuts and bruises, Mr. Kline sustained a puncture of the lung. Frederick A. Busse, postmaster at Chicago; Samuel F. Nixon, Philadelphia; Felix Isman, Philadelphia; F. P. Rodgers, Chicago; E. J. Murphy, Joliet, Ill., and C. W. Winkler, Chicago, who are also in the Altoona hospital, are resting easily and will be able to leave the institution in about 10 days.

COMPANY'S EMPLOYEES

ROBBED INJURED.

Pittsburg, Pa., Feb. 25.—"For God's sake tell Pittsburg the flyer is in the river," said C. E. Hoover, a brakeman on the Pennsylvania special wrecked at Mineral Point, Pa., a few minutes before midnight. Hoover, so it is said, then fainted. He recovered quickly, however, thought of the men of millions on the train and then got busy. He did not spend much time in rescue work. Diamonds, watches and the "long green" proved the magnet for Hoover. He played no favorites. Aided by two other employees of the company, Hoover proved himself a prize looter. He cleaned every person he could, caring nothing for those who were injured, and when he climbed up the hill over which the cars rolled every pocket he owned was stuffed with loot, as were those of the two companions.

"Couldn't possibly have been robbed," said railroad officials when complaint was made by Postmaster Frederick A. Busse, of Chicago; Emil Paur, director of the Pittsburgh orchestra, and others who suffered. "Must have lost it in the excitement," the official continued. "However, put in a claim, and we will endeavor to compromise."

Meanwhile other Pennsylvania officials gave out stories of looting and scored those mean enough to rob injured men, women and children. The railroad company knew some one made a good haul, and by watching Hoover and his companions they soon learned who the looters were. When searched Hoover and his friends had diamond studs, diamond rings, cuff buttons, watches and a bank roll large enough to fire an engine. It is said that Hoover had \$2,000 in cash besides the jewelry. It was agreed by officials here to recover the loot, and dismiss the employees. Exposure by a Pittsburg newspaper caused the officials to change their minds and Hoover was arrested en route east at Johnstown last night charged with robbing passengers.

NEWARK GIRL GOES TO COLUMBUS.
A West Newark man appealed to the police Saturday asking them to locate his daughter, who left his home. The man told Chief Sheridan that the girl had gone to Columbus in company with a man. He was advised to seek the aid of the Columbus police. A special from Columbus says that the police department there was unable to locate the girl and the Newark man was compelled to return home without his daughter.

FATAL FIRE IN PITTSBURGH.

Pittsburg, Pa., Feb. 25.—Shortly before 9 o'clock this morning fire broke out in the basement of the Hayes building, 819 Liberty avenue, occupied by the Derby Desk company. The flames spread rapidly and two additional alarms were turned in. At 10 o'clock the blaze had spread to the Second National bank building and to the Baker Desk company's building on either side of the Hayes building. Mina Williams, a stenographer employed in a private office in the Second National bank building was crushed while escaping by the stairs, and a salesman in the same building, name yet unknown, was crushed in the same manner.

NEW TROLLEY MAY BE BUILT

GIVING NEWARK A DIRECT CONNECTION WITH WHEELING VIA ZANESVILLE.

While it is Assured That the Line From Mansfield to Newark Will be Constructed.

Newark may be connected with Wheeling by an electric line extended from Zanesville.

A corps of six civil engineers is now at work surveying a line from Zanesville to Wheeling. The proposed route is south of the line of the B. & O. railway and at about the same grade.

It is barely possible that the Indiana, Columbus & Eastern is back of this new move, since this corporation is gradually gaining control of all interurban lines in this state. The line from Wheeling to Zanesville would be a paying one and interurban men have long considered the proposition.

The surveyors have worked twelve miles east of Zanesville but of course they are not making the plans of their employers known other than to state that they are working on an interurban route.

The Cleveland Leader says:

There are two propositions for the construction of an interurban line from Mansfield almost due south, paralleling in place the B. & O. as far as Newark. This will take in the Mt. Vernon property recently purchased by R. N. Abbott. One of these projects is in the interest of the Cleveland, Southwestern and Columbus. The other is by a company known as the Mansfield and Southern. Mr. Thomas W. Latham is a part owner of the Mansfield and Southern and in view of his relations to the Cleveland and Southwestern, it is possible that the two projects may become one ultimately and a single line be built from Mansfield through Mt. Vernon to Newark.

In case a line is desired into Columbus an outlet could be obtained in either of two ways. Daniel J. Ryan formerly secretary of state of Ohio, is completing a line from Columbus in the direction of Johnstown. This is on a line between Utica and Columbus. This new line could either build a connection with the Ryan and obtain a Columbus outlet, or they could use the Schoepf lines from Columbus to Newark, obtaining at the same time an outlet to Zanesville and southeastern Ohio. It is now declared positively that the Cleveland, Southwestern and Columbus intends to build into this territory instead of trying to enter Columbus through Marion and Delaware, thereby coming into conflict with the Webb properties which practically have that territory under their thumb.

RHEUMATISM

BADLY CRIPPLES A BALDWINVILLE FARMER.

URIC-O QUICKLY CURED HIM.

Mr. Frank Howe a prominent farmer of the town of Van Buren, says: "During a siege of the most painful form of rheumatism, which lasted two years, I did everything that was possible with the aid of money to find relief. I spent several hundred dollars, and seemed to grow worse instead of better each day. Being on crutches and forced to drive to the train and then hobbling to the doctor's office became very discouraging, let alone sleepless nights and the fearful hours of pain. Being advised by a friend to try Uric-O I purchased a bottle and began its use as directed. In less than 24 hours these fearful sciatic pains left me, my blood seemed to let loose and flow freely, I felt different, and knew at once that I had found a cure, as I slept and rested all that night, something I had not done before in two years. I used in all six bottles of Uric-O, and can truthfully say that I have never felt a return of the disease, and have had no use for crutches or cane since the first day's treatment. I invite all Rheumatics to write me and learn further truth concerning this wonderful remedy."

THE GREAT SURPRISE

BY REV. CHAS. H. ARMSTRONG

The Rev. Charles Henry Armstrong, who a few years ago was a school teacher in Franklin township, Licking county, has just written for the Cairo, (Ill.) Daily Telegraph, his home paper, the following poem entitled "The Great Surprise":

AT THE GRAVE SIDE.
The silver cord has snapped in twain,
The golden bowl holds pulseless brain;
A cypress sighs above his grave,
And where is he so strong, so brave?

The Sun-god falls on sleep to rest,
And ghostly twilight lumes the west;
Fair Phoebe smiles o'er hill and vale,
And lad and lass in dreamships sail.

From out the east, day's orb, anew,
Shall gallantly come the heavens through;
But he—my lover—wakes no more,
His life-dream ended, all is o'er.

TWENTY YEARS AFTER.
Across my sight the shadows steal—
Upon my lips death's purpling seal.
"O flood of light, O vision, rare—
My loved and lost in garments fair."

My earthly vesture lies in state,
While surpliced priests earth deeds relate,
The dirge is chanted, "Dust to dust,"
And "earth to earth," in hope and trust.

We meet where Life omnific smiles,
Where "death ends all," no more beguiles.
Across "the tears of twenty years,"
I bid farewell to phantom fears.

With trembling hands, I furled life's sail
And slept, to wake beyond the veil;
Where soul-life's fadeless headlands rise,
True vision comes, the great surprise!

Where asphodels forever bloom,
God rifts the clouds beyond the tomb;
And I perceive—Divinely shown—
We see and "know as we are known."

Women Avoid Operations

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure.

The strongest and most grateful statements possible to make come from women who by taking

Lydia E. Pinkham's Vegetable Compound made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes: "Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

Strange Coincidence.

(Ohio Sun.)

The death of Judge S. M. Hunter
of Newark during the past week has
removed from the political field one
of the men who contested with John
M. Pattison, John C. Welty of Can-
ton, Lawrence Neal of Chillicothe,
and Judge B. F. McCann of Dayton
for the gubernatorial nomination at
the Democratic convention in 1905.
The death of Lawrence Neal of
Chillicothe was sudden. He was ap-
parently in good health and his sud-
den demise was a great shock to his
political friends and over the state and
to the public at large.
John M. Pattison, who won the
coveted nomination, did not live long
to enjoy the honors that the people
bestowed upon him.
The death of the three most active
candidates for the honor within a
year, is a remarkable coincidence.
Judge Hunter was one of the strong
men of his party and had been hon-
ored in various ways during his busy
and eventful life.

The Omaha plan of paying children

they were punished if they were ab-
sent. Spare the rod and spoil the

The Mothers' Congress has been
advised by President Roosevelt to
give some thought to "the father in
the home," but as long as everybody
works but father, what is the use of
bothering about him.

The government of Brazil has
granted preferential tariff duties to
United States products that compete
with the Brazilian trusts. As a means
of fighting these predatory corpo-
rations we might well follow the Bra-
zilian example and put articles pro-
duced by our trusts on the free list.

Governor Cummins seems to keep
mighty quiet about the "Iowa Idea,"
although one would expect from his
former strenuousness he would, like

Governor Gould of Massachusetts,
be petitioning the President and the
Congress for tariff revision.

The diamond trust has added an-
other five per cent to its profits, but
who cares?

The railroads must find it cheaper
to kill the public and their employes
than to adopt safety devices and oth-
er expensive precautions against acci-
dents. The report of railroad acci-
dents just issued by the Interstate
Commerce Commission for the three
months ending September 30, 1906,
shows 267 killed and 5,891 injured.
Accidents of other kinds bring the to-
tal number of casualties up to 19,-
850, or 1,182 killed and 18,668 in-
jured. These reports deal only with
passengers and employes on duty.
The price of human life must be
raised and the railroads will soon be
more careful.

Smash Ups and Excuses.

(From Collier's for February 23.)

As one smashup follows another,
the directors of the railways explain,
and explain, and explain. Some-
times they blame the engineer
for disregarding some regulation
which they have persistently forced
him to disregard. "Any engineer
who doesn't take chances is looked
upon as a grandmother," expresses
the actual truth. Sometimes the di-
rectors speak of insubordination
and inefficiency of employes—an
answer which must be considered
with our minds full of knowledge
about what the directors exact or
expect of their employes in the way
of hours of labor, manner toward
the public, and methods of making
schedule time. Conspicuous railway
men have blamed the public for de-
siring too much speed—even as the
sellers of cocaine to shop-girls al-
lege that they are only giving what
the shop-girls want. The railway
directors are not required to mur-
der so many passengers as they do
on so flimsy a pretext as the desire
of people to ride fast. After a re-
cent accident in Indiana, apparently
caused by a mixture of recklessness
and avarice, a station-master testi-
fied that if he had been provided
with even a stick of dynamite he
could have made a noise signal
which would have stopped the ex-
press in time. A spirit of arrogance
and contempt leaks down fast from
directors to every employee on the
road and finds expression in the con-
duct of every detail of management.
We feel safe in observing that the
greatest number of accidents occur
on those roads of which the direc-
tors are still most deeply imbued
with the noble old business prin-
ciples that their business belongs to
them, and that the public is a
species of merchandise which has
the insolence to make a trifle more
trouble than the hogs and cattle
make.

customs which prevailed among the
Indians long before the coming of the
whites.

These courts were never interfered
with by the white authorities, and all
petty cases of infractions of the

white man's laws, as well as of the
red men's laws, were brought before
these Indian courts for adjustment,
and the decisions of the court stood.

There was no appeal and there were
no delays. When the Indian court
made a decision its sentence was car-
ried out to the letter and every mem-
ber of the entire tribe saw to it that
there was no shirking.

in the senate after passing the house
at the session last year. The organ-
ization will have a large executive
committee, which will be composed
of both parties, in each county. This
has not yet been formed. The inten-
tion is to create sentiment in favor
of compulsory primaries of both nar-
ties the same day, and to bring this
to bear on members of the legislature
who opposed the Bronson bill.

That Governor Harris believes one
political job is enough for one man
was indicated when he appointed C.
P. Wickham of Norwalk to succeed
Judge Samuel A. Wildman, also of Nor-
walk, as trustee of the Madison Sol-
diers' home. Judge Wildman is a
member of the committee to examine
students for admission to the bar. As
committee member he receives fees. As
trustee he receives no pay. The gov-
ernor reappointed J. Cory Winans of
Troy a trustee of the Madison home.
Alex Renick of Chillicothe was ap-
pointed a trustee of the Gallipolis
Epileptic hospital.

Colonel W. L. Curry, state commis-
sioner of soldiers' claims, is over-
whelmed with applicants for registry
under the new service pension law,
by which all soldiers of the civil war
who are 62 years old or over may re-
ceive pensions without claim of dis-
ability. They must swear to their
names, residence, where enrolled and
when, company and regiment, their
service, height, color, color of eyes,
hair, occupations, where born, place
of residence, whether now pensioners
or not and postoffice address.

Another decision is at hand affirm-
ing the validity of the Jones law for
erecting residential local option dis-
tricts by petition, this time by the
superior court of Cincinnati, presided
over by Judges Hoffheimer, Ferris
and Hosea. Their decision was ren-
dered in the case of Martin Doering
and Thomas J. Logan to the test the
Jones law, in which they held that it
was not shown the law is unconsti-
tutional. The court says: "We have
carefully considered the petition for
repeal of the law, which plaintiff claims
is illegal because it is an election not
by ballot. We deem it sufficient to
say that the objections urged are not
so clearly sustained as to justify us
in holding the law unconstitutional as
against the presumption raised by the
well-established rule in its favor."

Judge Harry M. Hoffheimer was a
member of the legislature in 1900, the
colleague of Nicholas Longworth, now
congressman. He and Longworth
were the only "Cox member" of the
house, the other representatives from
Hamilton county in that legislature
being Democrats.

miums for the fair this year will be

Professor A. F. Burgess, chief in-
spector of orchards and nurseries
ever since that bureau of the state
board of agriculture was established,
resigned to take effect March 1. He
will be employed by the state of
Massachusetts in its campaign against
the gypsy and brown-tailed moths.
His salary here of \$1,800 per year will
be increased in the new field. He is
a native of the Bay state. He is
president of the National Association
of Horticultural Inspection and sec-
retary of the National Association of
Entomologists. His headquarters
will be at Boston and he will make
experiments with insecticides with a
view to discovering a better and
cheaper means of destroying the
moths, both imported pests.

The board of trustees of the New-
burg asylum at Cleveland ignored the
orders of Governor Harris to change
superintendents at its February meet-
ing on account of the disclosures
made by the recent investigation. It
is claimed the board favors retaining
Dr. A. B. Howard as superintendent,
and blames conditions at the insti-
tution on meager appropriations by the
state legislature. The next regular
meeting of the board will be in March.

As an incident having nothing to do
with, but made interesting by the
bribery scandal with which the cap-
ital city of Ohio is aflame, the pres-
ident of the Cleveland contracting
company involved in the scandal by
the statements of one of its em-
ployees is M. F. Bramley, a representa-
tive of Cuyahoga county in the house
of the legislature of 1898. Bramley
belonged to the McKisson faction
which opposed the election of M. A.
Hanna to the United States senate.
It is said that Bramley and Harry
Mason both wanted to be speaker of
the house, that McKisson left it to
them to decide, that they tossed a
coin and that Mason won. Mason
was elected speaker and Bramley was
made floor leader of the anti-Hanna
Republican members, who won the
organization of the house and held it
till the end of the session. Bramley
was one of the seven Republican
members of the legislature who did
not vote for Hanna for senator.

There seems to be no end of trouble
for J. C. Porterfield, state game ward-
en. Governor Harris had Porterfield
on the carpet to inquire into the mul-
tiplicity of complaints of acts of in-
justice of deputy game wardens in var-
ious parts of the state. The warden
talked at length with the governor,
claiming that there were two sides to
the story. It was finally agreed that
Porterfield should make a special re-
port on these complaints and on all
phases of his official record, to the
state fish and game commission. A
report that he intends to probe the
commission and the warden was de-
nied by Governor Harris.

Another boy, deaf, dumb and blind,
has been found in Ohio. Secretary
Shirer of the state board of charities
received a letter from A. O. Wulff-
horst, township clerk at Delphos, call-
ing his attention to the fact that there
is a young man at Delphos as desper-
ately afflicted in the same manner as
the Reynolds boy of Logan. He says
the boy in his county is almost 18
years old, deaf, dumb and blind and
paralyzed. Nothing will be done in
the case until the circuit court de-
cides whether the Reynolds boy is
eligible to admission in the state in-
stitution for feeble-minded.

David A. Hollingsworth of Cadiz is
the first man to be mentioned as a
candidate for congress in the Six-
teenth district, to succeed Capell L.
Weems, who is said to contemplate
voluntary retirement at the end of his
present term. This is not the first
time Hollingsworth has been men-
tioned for congressional honors. He
has sought the nomination many
times, but lost repeatedly through
combinations of other counties against
Harrison county.

Governor Harris issued an appeal to
commercial bodies of the state, as
president of the Ohio branch of the
Red Cross, for contributions for re-
lief of sufferers from famine in China.
All money should be sent to E. R.

Bank and Trust company, Columbus,
as treasurer of the state branch, who
will forward it to the national Red
Cross treasurer at Washington, D. C.

special representative of the Red
Cross, the situation in China is de-
plorable.

The principal replied, "I don't promise

SUBSIDY BILL ONLY MEASURE OF IMPORTANCE

THAT WILL RECEIVE ATTENTION
OF THE HOUSE THIS
WEEK.

Henry of Texas, and Moon of Tennessee, New Candidates for Democratic Leadership.

Washington, Feb. 25.—Aside from appropriation bills and conference reports, the ship subsidy bill is the only measure of general importance that is likely to receive the attention of the house, and the Aldrich financial bill the only one that probably will receive the attention of the senate during this, the closing week of the last session of the Fifty-ninth congress. It is Senator Aldrich's purpose to press his bill for consideration whenever opportunity offers, and he is still hopeful of success, notwithstanding the opposition, the congestion of business and the limited time left. The house friends of ship subsidy also profess themselves as hopeful, but they admit that every day that goes by without action lessens their chances.

Minority Leader.
Washington, Feb. 25.—Two new candidates have been placed in the field for the honor of the minority leadership in the Sixtieth congress. These were Representative Henry of Texas, the present caucus chairman, and Representative John A. Moon of Tennessee. A meeting of the Tennessee delegation in the house was held and it was decided, in view of the opposition to Mr. Williams and the possibility of another being selected as leader, to place Mr. Moon in the eligible list. Mr. Henry is said to have wired from Texas to some of his friends here that he is to be considered a candidate.

President Returns.
Washington, Feb. 25.—President Roosevelt and party reached here shortly after 10 o'clock this morning from Boston. The president devoted Sunday to a trip to Groton, 40 miles from Boston, where his son Kermit is a pupil at the Groton preparatory school. Mrs. Roosevelt and Miss Ethel Roosevelt were already there, and the president was accompanied by Mrs. Longworth.

AMUSEMENTS

VIRGINIA HARNED'S

IDEA OF CAMILLE.

The character of Camille has always appealed to me as being the most sympathetic in the modern drama. Her sacrifice is sublime and saint like. The usual fashion has been to treat this drama of "La Dame aux Camellias" as the mere love romance of a courtesan, and even when the more noble hints of character have been glimpsed, the emphasis of the actress has been rather more bestowed upon the demi mondaine nature of Camille and her environment, than upon the less passionate aspect of her character, her real soul awakening through the power of redeeming love. I seek to portray her as a more spiritual creature than she is commonly depicted before the footlights. With Armand the first real love has entered into her life. It

CARRIAGE OR EVENING WRAP.

The sketch shows a smart model for a loose coat, the original garment being of cream white broadcloth trimmed with satin bands and buttons with silk cord loops. The revers

does not matter how much she may have sinned; this is the genuine love, and by this pure love she is purified in spirit. I try to convey this nobler lesson of the play, this more uplifting emotion of a woman who has won the need of forgiveness through supreme suffering and self renunciation. At the Auditorium tonight.

GIRL OF THE SUNNY SOUTH.

That the public will appreciate a clean, wholesome and interesting play devoid of the "blood and thunder" that are considered essential to a successful play, is amply exemplified in the manner in which Travers-Vale's latest romance, "The Girl of the Sunny South," is being received. As sweet as magnolia blossoms and pure as snowy cotton is this heart of the south. There are many strong and stirring dramatic climaxes, cleverly woven in this welcome production. The scenic effects are out of the ordinary. Those of the old cotton fields during picking time, the vision of the execution on the battle field of Chicamauga, and the escape from a Georgia prison are especially fine. Auditorium, Tuesday, Feb. 26.

BOB FITZSIMMONS WEDNESDAY

Those who fail to attend the Auditorium Wednesday, February 27, will miss a rare treat, as the great and only fighting Bob Fitzsimmons, at present termed the athletic actor, will appear in the star role as a hero in Hal Reid's play, "A Fight for Love," a play that has proved to be one of the best melodramatic successes of the season. Mr. Fitzsim-

mons has clearly shown that he can act as well as fight, and Mr. Reid has written a play that fits him like a glove, he simply plays Bob Fitzsimmons true to nature. There is no end of interesting features, startling climaxes and stirring situations throughout the play. Manager J. C. Matthews has surrounded him with a strong company.

IN POLICE COURT.

The police officers took a step Saturday evening which will lead to the breaking up of a crowd of drunken loiterers who are accustomed to congregate at Fourth and West Main street. Tom Mum and Ernest Drumm, both drunk, created a disturbance near the Fritz saloon which resulted in the calling of the police.

Officer Swank from the patrol station and Patrolman Zergiebel placed both men under arrest but not until after considerable trouble. Drumm resisted Officer Swank and almost escaped but the cop overpowered him and took him to the patrol station where he was sent to the city prison.

In police court both men were fined, Mum drawing \$5 and costs and Drumm getting \$10 and costs. Mayor McCleery issued orders to the police instructing them to arrest every person on that corner who is guilty of using profane language. Many complaints have been made to the police of the profanity used by the loafers of the above corner.

PROF. C. HERRICK RECEIVES HONOR OF APPOINTMENT

AS PROFESSOR OF NEUROLOGY
AT THE UNIVERSITY OF
CHICAGO.

About Twenty Denison Men Are Now
Connected With This Big
Institution.

Grenville, Feb. 25.—A dispatch from Chicago says: "Dr. Harry Pratt Judson Saturday made his first appointments as president of the University of Chicago. Charles Judson Herrick, professor of zoology at Denison university, has been given the professorship of neurology in the department of anatomy, and Chauncey W. Wright, instructor at Cornell university, has been made instructor in political economy."

It is quite a coincidence that the first appointment to be made by Dr. Judson is that of Prof. Charles Judson Herrick, a brother of the late Prof. C. L. Herrick, who was one of the first professors chosen by the late Dr. Harper when he took charge of the University of Chicago some fifteen years ago. Denison university has contributed about twenty professors' instructors and officers to the great Chicago university. As yet Prof. Herrick has not sent in his acceptance.

The township board of education held a called meeting in the Town Hall for the purpose of discussing the leases they had recently given to the Logan company. Prosecuting Attorney J. R. Fitzgibbon appeared before the board, and gave it as his opinion the leases were illegal, as the meeting at the time they were made, was not properly called. Mr. B. N. Sigler, a representative of the Logan company, was present and made the board another proposition but the matter was deferred until this evening. The president has invited other companies to be present to make offers on these lots.

On Saturday morning while William Thomas was doing up his chores on his place north of town, he accidentally run a nail through his shoe and into his foot, causing a very painful wound, which necessitated having a doctor attend to it.

There was quite a lively runaway in the western part of the village Saturday evening when a horse owned by a stranger and hitched to a spring wagon ran about two blocks. The horse was caught before any damage was done.

The question is often asked why more parents do not visit the public schools. Encourage your children by frequent visits to the school and take some interest in their progress.

August 9th will be Ohio Day at the Jamestown Exposition, and judging by the talk at present, many Granville people will be there on that day.

Mrs. L. G. Fisher and little son and daughter, Robert and Helen, who have been visiting here for a few days, have returned home.

Carl Ashton, superintendent of the water works and electric light plant, has tendered his resignation to accept the position of superintendent of the university heating plant.

BIG INCREASE IN THE COST OF BUTTER AND EGGS

IS THE RESULT OF CURTAIL-
MENT OF THE FACTORY
SUPPLY.

Cost of Cream Has Advanced Over
200 Per Cent.—Leather Industry
on the Boom.

Washington, Feb. 25.—That the cost of milk, and particularly cream, has advanced enormously since 1900, as the result of the curtailment of supply to the factory and the increasing market in the large cities, is indicated in a census bulletin issued relative to the manufacture of butter, cheese, condensed milk, flour and grist mill products and starch for 1905. A substantial increase in the manufacture of all these products is shown since 1900 except starch, which declined markedly. Cost of cream increased 247.9 and milk 2.7 per cent.

Leather Industry.
Washington, Feb. 25.—The leather industry contributed \$150,000,000 to the foreign commerce of the United States in the year 1906, against less than \$55,000,000 a decade earlier. These figures were announced by the bureau of statistics of the department of commerce and labor. The value of hides and skins imported in the calendar year 1906 was practically \$84,000,000, having quadrupled in 10 years. Of leather and its manufactures exported, the figures for 1906 were over \$45,000,000, and in 1896 less than \$15,000,000.

BURNING LAMP BADLY INJURED AN AGED WOMAN

MRS. ELIZABETH BONHAM VIC-
TIM OF TERRIBLE KERO-
SENE BURNS.

In Attempting to Carry an Exploding
Lamp From Her Home on West-
ern Avenue Sunday.

Mrs. Elizabeth Bonham, aged 75 years, was so terribly burned in a kerosene lamp explosion Sunday evening at 6:30 that she will doubtless not recover for many weeks. The face, arms and lower limbs were so badly burned that the injured, aged woman secured very little rest Sunday night.

Central hose company responded to the fire alarm calling them to the residence of the aged woman and her son, on Western avenue, near the corner of Eleventh street. Upon arriving there the inside of the house was found badly damaged by the flames, which, however, were soon extinguished by the prompt use of chemicals. Neighbors partly succeeded in extinguishing the blaze, which threatened the life of the aged woman, but not until the greater part of her clothing had been burned or torn from her.

Long & McCament's ambulance hurried Mrs. Bonham to the Newark Sanitarium where she was given prompt attention by Dr. P. H. Cosner.

In spite of her suffering the aged and unfortunate woman gave the following description of the accident to an Advocate reporter:

"I had just finished getting supper ready for my son and sat down in front of the grate, thinking every minute he would be back before long. All at once I noticed the lamp acting so queer, and I couldn't think what was the trouble. I got up and tried to blow it out, but it wouldn't go out. Then I remembered that once before Reason had carried the lamp out when it was exploding and saved the house from catching on fire, so I grabbed it with my long apron and started out doors. The coal oil must have spilled all over me, for the last I remember about it was that I was all afire. I don't know anything more than that I am suffering much pain from the burns."

Mr. Reason Bonham, the son, is an employe of a local liveryman. He was down street at the time of the accident.

Neighbors report the accident in a different manner, saying that it was the custom of Mrs. Bonham to kindle a fire in the stove by means of kerosene and that it was in this way the explosion was caused.

NEWARK PAINT CO.

Located in Union Block Has Made
Great Progress and Enjoys a
Splendid Patronage.

When the Newark Paint Company opened for business about the first of December, 1905, it was not looked upon seriously; it was a business that nobody knew much about, although people were having their houses painted year after year, or using paint for other and various needs that are always arising, but they never thought much about paints, and less about the new paint store.

But what a change has taken place in that short length of time—a little over a year.

Today the Newark Paint Company is one of the best known business houses in Newark, and is unduly known throughout the entire southeastern and central part of the state. It is the only exclusive paint store within that area, and is not only enjoying a large wholesale and jobbing trade, but has built up an enormous retail business. People go there to find out what they want to know about painting the outside of the house; or painting or staining the walls, floors and woodwork of the interior. They have grown to know that it is never any trouble to be waited on with promptness and courteous attention. Ladies themselves go and make their selections of colors for a room, or are shown what a certain finish or stain can be made to actually look like. Painters have learned to make it their headquarters.

While it is safe to say that a good deal of this success is traceable to the quality of the goods, yet much is due to Mr. R. S. McKay, the manager, who in the brief time of his residence in Newark has made many friends and has demonstrated himself as a capable man of business, deserving of every confidence and esteem.

The Newark Paint Store is located at No. 21 West Church street, occupying a large store room and basement in the new Union block, where is carried a complete line of paints and wood finishing material; for the painter, interior decorator and architect. This house is also distributor for the Marietta Paint and Glaze Company of Marietta, Ohio, the best exclusive manufacturers of wood finishing materials in the world.

Referring to the honor that has come to Mr. Shirley T. Wing, announced in the Advocate Saturday, the Columbus Dispatch says among other things:

The examination (for the Rhodes scholarship) was very exacting in regard to mental and physical qualifications, and even the manner and etiquette of the participants were observed by the board of five college presidents, who form the examining committee of which President Thompson is chairman.

The Wing family, from which the successful student comes, is prominent in the history of Ohio State university. He takes his middle name from President Townsend, first dean of the agricultural college, and connected with the faculty of the university for 25 years. Townsend hall is named for the aged professor. Dr. Townsend was Mr. Wing's grandfather's side Shirley Wing is the father's side Shirley Wing is the grandson of L. B. Wing of Newark, who was a trustee of the Ohio State university for 21 years, having been appointed consecutively by Governors Foster, Foraker and McKinley.

The Wing family moved to Columbus from Newark about eight years ago, where Mr. Wing was formerly engaged in the banking business. At present he is president of the Wing Cigar company. Shirley went to North High school and was a good student. At the university, from which he will graduate in June, at the age of 21, his penchant for study made him a fine student.

At Oxford where he will go next fall, Mr. Wing will take a three year course as prescribed. He will have an allowance of 500 pounds a year. Only two Ohio boys will be at the university because the rules permit only two from each state. Examinations are held every two years.

TOO MUCH TO EAT LOST TO WOOSTER

DENISON PLAYERS HAD NOT RECOVERED FROM BIG BANQUET FRIDAY.

Wooster Trimmed Baptists Without Difficulty, Presbyterians Guards Being Fine.

Granville, O., Feb. 25.—Denison was defeated by Wooster here in Cleveland hall Saturday afternoon by the score of 14 to 11. Wooster was first to score and kept in the lead to the end.

Wooster's guarding was the best seen here this season and Thompson, especially, who played against Livingston, was constantly hugging his opponent, who put him out of the game twice.

Emerson caged four field goals during the first ten minutes of play while he was guarded by Runyan, but this star playing was ended by changing the guards. From then on to the end of the game Emerson could not keep away from Rockwood, his guard making but one basket off of him. The Denison team was not in very good shape on account of the Washington banquet Friday night.

The line up:
Denison (11)—Spencer rf; Pine lf; Livingston c; Runyan and Rockwood rg; Rockwood and Rogers lg.
Wooster (24)—Emerson rf; Coupland (C) lf; Thompson c; Forman rg; Fulton lg.

Summary: First half—Goals from field—Spencer 1; Livingston 1; Forman 1; Emerson 1. Goals from foul—Coupland 1; Livingston 1. Score, 5 to 11.

Second half—Goals from field—Spencer 1; Livingston 1; Emerson 1; Coupland 1; Fulton 3. Goals from foul—Livingston 2; Coupland 2. Referee—Eisenmenger. Timer—Cox.

DOGGIE HULING MADE MANAGER

FORMER ZANESVILLE FIRST BASEMAN GOES TO CLARKSBURG, W. VA.

Must Get Team That Will Whip Fairmount, W. Va.—Well Known in Newark.

Once more Cincinnati is called upon for a pilot to lead a team to victory and glory, says the Enquirer. Clarksburg, W. Va., has secured Tom Huling, an East End boy, as manager for their club, and given Sir Thomas full power to act in securing a team that will at least down Fairmount, W. Va., in the Western Pennsylvania league. There has always been a great rivalry between these two towns and now that both are in the same league it will be war to the bitter end. Rod Mack has the management of the Fairmount team, and as Rod also hails from these parts, the fans of the above teams can rest assured of seeing some lively sport during the coming season. Huling and Mack are being assisted in securing local talent by John Spinnery, and by the end of next week most of the promising youngsters will be lined up with either Fairmount or Clarksburg.

ZANESVILLE TO FIGHT FOR YOUNGSTOWN TEAM.

Zanesville, O., Feb. 25.—Zanesville is not going to submit to her throw-down at the hands of the O. P.

league magnates as gracefully as the latter doubtless expect.

At a meeting of representatives of the Zanesville Baseball company held here, it was decided to carry the company's claims as to the purchase of the Youngstown franchise into the courts, and W. C. Handschy was appointed to confer with Attorney F. A. Durban, general counsel of the B. & O. railroad, for the purpose of securing his services in prosecuting the case.

It was also decided to make an assessment of 5 per cent on the subscriptions, amounting to about \$12,000, to the Zanesville baseball stock to secure necessary funds.

Newark outclassed the Akron polo team at the Palace rink Saturday night in an interesting game, Newark winning by the score of 5 to 0. CATARRH PREPARES THE SYSTEM FOR CONSUMPTION

While Catarrh in its first stages usually affects the head, it does not stop there if the trouble is allowed to run on. The contracting of a cold is generally the commencement of the unpleasant symptoms of ringing noises in the ears, nose stopped up, mucus dropping back into the throat, hawking and spitting, etc. The inner skin or mucous membrane of the body becomes inflamed and secretes an unhealthy matter which is absorbed into the blood, and Catarrh becomes a serious and dangerous blood disease. Every day the blood becomes more heavily loaded with these poisonous secretions, and as the poisoned blood constantly passes through the lungs they become diseased, and often Catarrh terminates in Consumption. Sprays, washes, inhalations and such treatment do no real good, because they do not reach the poison-laden blood, where the real trouble lies. The only way to cure Catarrh is to purify and build up the blood. S. S. S. has been proven the remedy best suited for this purpose. It goes down to the very bottom of the trouble and removes every trace of impurity from the circulation, freshens this life stream and, as this healthy blood goes to every nook and corner of the system, Catarrh is driven out and a lasting cure made. The inflamed membranes and tissues heal, the secretions cease, the head is cleared and the entire system renovated and put in good condition by the use of S. S. S. The Literal Victim.
They stood pensively on the platform of the toy railroad station at the beautiful suburb Bensonville.
"I understand you clearly," said the victim. "You told me that the property was but a stone's throw from the station. Where is it?"
"It's just up the road a bit," replied the real estate man.
"But it should be right here. You said a stone's throw."
"Yes."

"Now, see here, sir," cried the victim testily, "you know blamed well that a stone can't throw."—Harper's Weekly.

How Long Will It Stay There?
There are times when I am blue,
And, you bet, I hate 'em too.
There are times when there's no joy in anything,
When dark clouds come across my sky,
When I almost want to cry,
When I curse, instead of praise, the birds that sing,
But that's when I'm busted flat,
When I'm realizing that
I'm right up against the commonest of woes.
But it's just the other way:
There's no night—it's all bright day—
If I only have a dollar in my clothes.

There is nothing quite so sad
To one almost always glad
Than to know his pockets don't contain a cent.
All his cheerfulness will fade,
Into deep despair he'll wade,
And he'll wonder where on earth his money went.
But the sun will shine once more,
Shine as brightly as before,
And he'll feel a tinge of joy clear to his toes.
When the time arrives that he
Can dig where his coin should be,
And discover he's a dollar in his clothes.

The Dilapidated Gentleman Talks

Visits an Ohio Village and Tells How He Came to Take Up Tramping.

[Copyright, 1906, by P. C. Eastment.]
ONE evening in the outskirts of an Ohio village, began the dilapidated gentleman as he was asked for a reminiscence of the road, "I knocked at a comfortable looking house to ask for a bite to eat and leave to make my bed under the currant bushes. The door was opened by a woman weighing about 200 pounds and having a motherly look all over her. Just let me tell you something right here. If it wasn't for the fat women of America the tramp would soon be an unknown quantity. They are as big hearted as well, as big bodied. Not once in a hundred times have I appealed to them in vain. On this occasion I hadn't got my mouth open before the good woman saluted me with:

"You poor fellow! But come right in and get something to eat. I don't

"THE DOOR WAS OPENED BY A WOMAN WEIGHING ABOUT 200 POUNDS."

believe you have had a full meal in a week. Helen, help me to set out the cold victuals."

"Helen was her niece. She was an old maid. She had a turn up nose and wore glasses, and she looked upon me as dirt beneath her feet. She assisted her aunt, but very reluctantly, and I overheard her talking against me. If it had been left to her I should have got the bounce instead of a good supper. I knew that some sort of a story would be expected of me when I had eaten, and it occurred to me to heap coals of fire on the old maid's head in revenge. Sure enough, as I shoved back from the table the fat woman settled herself in a rocking chair and said:

"You must have had some adventures while tramping over the country?"

"Yes'm; a few."

"What started you on the tramp?"

"Now, auntie, what do we care? put in the old maid. 'He's a tramp, and that's enough. He is probably anxious to be on his way.'"

"And I'm anxious to hear him talk. Why did you take up tramping?"

"It is a story that I seldom tell," I replied, with a choke in my throat, "but you have been so kind to me that it would be selfish in me to withhold it. You may at some time have read or heard of Chief Justice Rathskaller of Washington. Well, he is my father."

"You don't say!" gasped the widow, while the old maid pricked up her ears and grew interested at once.

"Ten years ago, when I left college, my father wanted me to follow in his footsteps, or at least to become a lawyer. That was also my ambition, and perhaps I should have been on the bench today but for a trifling incident. One day my mother sent me to the laundry to say that the towels sent home were short by one."

"Yes; I've heard how them city laundries keep back things," replied the widow.

"At the laundry I could get no satisfaction about the missing towel, but the girl who was running the mangle instantly attracted my attention. She was as handsome and had about such a figure as this young lady here. Her hair was proud and aristocratic, as Miss Helen's is."

"Thank you," slurred the old maid as she hitched her chair a foot nearer and began to smile.

"That mangle girl captured my admiration in a moment and my heart within five. Twice again during the day I returned to the laundry to speak with her, and within two days I had told her that I could not live without her. I loved as the strong man loves. Had oceans rolled between us I would have drunk them dry to kneel at her feet."

"Gracious, but you must have had it hard!" exclaimed the widow.

"I have always wanted to be loved that way," added Miss Helen as she gave me a tender look.

"Within a week I had proposed and been accepted. Then I found that Jeanette was the daughter of a millionaire who had put all his money into a flying machine and it had flown away from him. She had sold her clothes and jewels and gone to work in the laundry to help him get a new start. We had been engaged two weeks when my father told me one evening that I must marry a girl named Aramantha Schermerhorn. His mind had been made up for some time,

SOME PLACE TO GO

but he had taken his time about informing me."

"And you refused?" queried the old maid. "Oh, do not tell me that you jilted the other!"

"I refused, of course. For the first time in my life I defied my father. Aramantha's papa owned a theater, and had I wed her we could have all had free passes and I could have gone behind the scenes now and then, but no argument could make me give up my Jeanette of the mangle."

"Good for you!" said the widow as she slapped the arm of the rocking chair.

"There was true nobility in your action," added the old maid.

"When my father found that he could not prevail upon me to carry out his wishes he rose up with fierce mien and a voice shaking with emotion and said that he would mangle the girl of the mangle before she should bring disgrace upon his house. I paid no attention to his words, but walked off. Alas, I did not know my own father! The very next night as Jeanette ceased to mangle the collars and cuffs and walked homeward thinking of me some one told her that there was a dog fight around the corner. She hastened her steps to see, and it was her undoing. Some one came up behind her and bit her with a crowbar and broke her neck. She called my name and then expired. Excuse me if I—I—"

"Poor man!" sighed the widow as I turned my face away.

"What a romance! What nobility of character!" mused the old maid.

"It was never ascertained who killed Jeanette," I continued after a proper interval, "but I have every reason to believe my own father to be the guilty party. In fact, when I charged him with it he simply grinned sardonically. I called him her murderer and cursed him and fled from his presence. In another day I was a wanderer, and I am a wanderer still."

"But why don't you go home sometimes?" asked the widow as she wiped her tears of sympathy away.

"Can't you understand, auntie," replied the other, "that he no longer cares to mingle with life? He has received a great shock. His heart has been broken. As he wanders o'er the face of the earth he thinks of his dead Jeanette. Down in his heart there is the hope that some day—some day he may meet up with some young lady—some young lady who will remind him of the loved and lost—so strongly remind him that he will cease to sorrow and—"

"She halted there, and I nodded my head, but the widow blurted finished: "And marry her and be happy again! Well, maybe he will."

"It was mean of me," smiled the dilapidated gentleman, "but it had begun to rain, and it was dark as tar out doors. I couldn't help but sigh and wipe my eyes. When I had finished sighing and wiping I couldn't help but look lovingly at both those women. I couldn't help but see that I had found a substitute for my lost Jeanette, but which one it was was just puzzled them. I had the parlor bedroom that night and a staving good breakfast in the morning, and I could have hung around there for a week and had the best in the land, but I overheard some conversation that made me anxious to strike the road again."

"Why, auntie, you surely don't think of marrying again?" I heard the spinster ask.

"Never you mind what I'm thinking of, Helen Smithers," was the reply. "I've heard of women throwing themselves at men's heads, but I never saw it done till last night."

THE ROSE

Oh, fragrant rose in pungent bed,
That bloometh redolent and red,
I would that I your secret knew—
Oh, rose, red rose, aglint with dew
If I but knew your charm to bloom
In soft and odoriferous perfume,
Too would make my fellows glad
By smiling where the path is bad!

Oh, fragrant rose, so brave and frail,
Lisp in my ear your secret tale,
That I may tell the world apart
And put your beauty in each heart!
Then human life could have no woe,
And each in fellow-love would grow!
Ah, rose! Red rose! Aglint with dew
I would that I your secret knew!

BYRON WILLIAMS.

ELDER JACKSON'S PHILOSOPHY

"Well, heah we is all agin, an' exceptin' fo' our colah we is all lookin' pretty fair, and considerin' our respective ages we is suttily feelin' fine. While in de airy spring a crutch helps yo' grandfather's rheumatiz out some, dere is no necessity fo' any crutch for de ole man's brain, as it certainly am buzzin' wid ideas dat mus' be got rid of, an' which I feel my bounden duty to percolate the same through de Jackson family here assembled, knowin' dat what I may say kaint do you no harm, and hopin' dat it may do you all some good."

"What I is gwine to tech on dis ebenen is churches, 'cendin' church, prayahs and preachahs."

"In de first place yo' grandfather is had too much 'sperience in religion to advise you as to what am de best church to jine to, 'case ef I did you all would git in so many disputes about de arguments about de denominations, dat all our pleasant ebenens would end in a disruption ob de Jackson family."

"Religion am intended to keep famblyz togadder, not but 'em up, but I regret to say dat de way it am been handled fo' yeahs back it has been de cause ob trouble in homes from de Czar's down to de dog ketchers."

"When you feel a spell of good comin' on to you, cultivate it, jine up wid a church—any church will do—jine on probation if dey 'll let you in, 'case any time you put in in dis way is a gain, fo' den you is out ob mischief. De habit of church goin' is on you, an' de chance is it will stick, an' may be dey'll elect you a deacon

or an elder, an' ef dey do, you is landed shuah. You kaint git away onless you is jist natcherly low down 'ornery."

"Ob course dis church goin' business kin be oberdone, an' is oberdone particularly by de wimen folks. I know ob a woman in our church who wid leh daughter b'longs to everything dat is connected wid de church; dey go to Monday evenin' meetin', Tuesday dere is a sewin' circle, Wednesday afternoon dere is a missionary meetin', an' de regular meetin' at night, Friday evenin' young people's prayah meetin', and de mo'her goes wid de daughter so's to bring her home safe, Saturday choir meetin', de daughter sings in de choir, an' de mo'her has to go agin, so's to bring her home safer, and all dis time de ole man sit's in de house eatin' cold vittles, wid no suspender buttons on his pants, an' no shoestrings in his shoes, an' on Sunday, ob course, it am church all day. I really believes dat dese kynd ob people kinder annoy de Lawd goin' to church so much, and a preacher dat knows his business, cught to uncourage dis kynd ob church goin' from de pulpit."

"No doubt dis kynd of preachin' would cause de usual fuss in de church, but aftah all, dese fallins, wid de preacher, and de preachah's fallin's out wid de congregation is good for de cause, 'case it results in mo' preachahs and mo' churches, fo' in my time when I rassled wid dis question ob what was de best church, and how de preachah should preach, our church dispensed wid de services of four preachahs, and dey ebery one started up a new church somwars else."

"Ob course, when de preachah springs a new idea, it ain't you duty to say he am wrong, an' make him all de trouble you kin; dis will make him earn his money, dat is, pervidin' de

congregation pays up. Dis list am sarcasm.

"I has also noticed dat some ob yo' prayahs don't breathe de spirit ob thankfulness dat is 'cordin' to de teachin's ob de Scriptures, but merely tell de Lawd how you is gittin' along, and how to run things fo' de nex' week. De Creator made all dese things 'cordin' to certain plans, an' dey aint gwine to be changed fo' yo' pertickerler benefit; de best you kin expect is good health to do you hustlin' wid, and dis too depends how you all work to de big plan. When you pray fo' rain fo' yo' corn, you am prayin' 'right, agin' some odder man's crop dat de rain would hurt, so it am gwine to ruin jest when it gets ready to rain, an' de best thing dat you an' de mule kin do, is to keep dat dry ground stirred up so it will soak up all de loose moisture dat am goin' an' to hope your shere ob de rain will come 'long bime by."

"Don't ebber git uncourage 'case de crop am gwine to be short; it am ebber thus—fat yeahs, an' lean yeahs—you all cum heah wid nothin' an' you is gwine away wid nothin', so de best you kin to leab a good name fo' yo' childrun, and den if dere is any mo' to leabe, you kin thank de good Lawd fo' it, realizin' dat he has jest lent it to you fo' fambly use fo' a little while."

"Wid spring commin' on, lots ob whi'ewashin', rug beaten', house-cleannin' and winder washin' to do, it do suttily look good fo' de cullud man, so hopin' dat you will assimilate dese remarks in de spirit dat dey am intended, and ef some ob you will tie de dawg up and put out de cat, yo' grandmam and I will retire to our boudoir for de remainder of de ebenin'."

SUSPECT CLERKS OF THE ROBBERY OF SUB-TREASURY

Chicago, Feb. 25.—The sum of \$173,000 was stolen from the local subtreasury last Wednesday and the authorities here and at Washington are working night and day on the robbery since it was discovered. Secretary Shaw was told of the theft when here last week, and was in conference with Subtreasurer Boldenweck and secret service officials. Everybody who could have had anything to do with the case was called into the treasurer's office and put through an exhaustive examination and a rigid cross examination. All denied any knowledge and protested their innocence.

Saturday a faint clew pointed towards a certain clerk, and followed up, directed suspicion to another employee. Both were summoned into the liguisation chamber. One thought to be the moving spirit, came through the ordeal without turning a hair, while the other, younger and weaker, showed signs of breaking down. Just what he admitted the secret service men refuse to disclose. Forty-eight employees and two persons not connected with the office will be subjected to continued surveillance.

Suspicion has narrowed down to a few clerks.

NEW PROPOSALS UNACCEPTABLE

Rome and French Government Unable to Reach an Agreement.

NO FURTHER CONCESSIONS

Premier Admits He Never Expected the Church to Accept the Conditions as to Leases—Nothing Terrible Anticipated by Officials if No Settlement is Made.

Paris, Feb. 25.—The clerical organs unite in declaring that Cardinal Richard, archbishop of Paris, will not submit to the new proposal of the government regarding church leases, and their Rome dispatches categorically insist that Pope Pius is resolved to maintain integrally the original text offered by the French Episcopate and to refuse even to discuss the government's exceptions relative to the liability of parish priests for the keeping up of churches and the exclusion of foreign priests or members of dissolved orders. Whether those inspired statements are only part of the diplomatic game remains to be seen. Premier Clemenceau now admits frankly that so far as he is concerned he never expected the church to accept the conditions as to leases.

"The future will show which is right, whether he is the victim of an illusion or I am mistaken," the premier said.

"If no agreement is reached, what will happen?" Premier Clemenceau was asked.

"Nothing very terrible," the premier replied. "I think we will return to the solution previously contemplated. The churches will remain open, that goes without saying, and it is conceded, without lease to the clergy, and the state department or commune, as the case may be, will bear the cost of keeping up repairs to a church out of the funds of the church itself. But rest assured the government will go no further in the matter of concessions. The Republican majority in the chamber of deputies would not indorse it, nor would any member of the cabinet, not even M. Briand, favor yielding any more."

Want Cockfight Lid Removed.

Havana, Feb. 25.—A procession headed by ex-Senator Montague, and composed of 500 horsemen, many carriages and bands of music, paraded the streets. A halt was made in front of the palace, where the bands played patriotic airs amid much cheering. Governor Magoon, in response to cries of "Long live Governor Magoon," reviewed the gathering from a balcony of the palace and afterward received a committee, which presented him a petition signed by many thousands of persons in Havana and other cities, requesting the abrogation of the military order of General Leonard Wood prohibiting cockfights. Governor Magoon promised to give the matter his careful consideration, after which the gathering dispersed.

CUT TO PIECES.

Prominent Baptist Clergyman Falls From a Fast Train.

Wesboro, Mass., Feb. 25.—The terribly mutilated and dismembered body of Rev. Dr. Everett D. Burr, a prominent Baptist clergyman of Newton Center, was found lying beside the eastbound tracks of the Boston and Albany division of the New York Central railroad, near the Summer street bridge. Medical Examiner Charles S. Knight stated that death was due to accident. He said that the victim had undoubtedly fallen from a moving train while passing from one car to another.

Steamer on the Rocks.

Canoe, Island of Crete, Feb. 25.—The latest reports received here from Cape Elaphonisi, where the Austrian Lloyd steamer Imperatrix ran on a rock Friday evening, are to the effect that 17 persons on board the vessel were rescued, and that a French cruiser, an Italian gunboat and a Russian cruiser were assisting in the work of rescue. The Imperatrix's bow is above water, but her stern is submerged. It has been impossible to obtain precise details of the wreck, as it occurred many miles from this place. It is stated that those rescued are in such an exhausted condition that they are unable to give coherent details of the accident.

Italy's Position.

Rome, Feb. 25.—From the work of Professor De Martens, Russian imperial councillor of state, which already has begun here in connection with the forthcoming session of The Hague tribunal, it appears that Italy, recognizing the necessity for peace, will sincerely co-operate in any movement leading to concord on the question of the simultaneous reduction of armaments.

Stabbed to the Heart.

Kansas City, Feb. 25.—Mrs. J. Oscar Richardson, wife of a missionary engineer, rushed between her son and husband in the act of a peacemaker at their home in Rosedale, near here, and was stabbed to the heart by Richardson. The couple had been quarreling, when the son interfered, taking the mother's part. Richardson then attacked the son with a knife, when the mother interposed.

An old soldier writes about ARIOSIA Coffee: "Your coffee is the best and richest coffee I ever drank since I left the service, from '61 until I received your coffee yesterday." A soldier knows coffee by the taste, and the way it makes him feel, and would sooner go without his bread than without his coffee. Arbuckles' ARIOSIA was the first roasted, packaged coffee, packaged for

protection of consumers, roasted and the pores of each berry sealed with a coating of fresh eggs and pure sugar, to hold the goodness in and make the coffee settle clear and quickly. Better than "fresh roast." Warning a little develops the flavor and makes the grinding easy. Our enormous coffee business, exceeding the next four largest firms in the world together, reduces our

average cost per pound, and enables us to give you better coffee for your money than you can buy in any other way. There are more packages of ARIOSIA sold in the United States than all the other Coffee packages combined.

New York, Feb. 22.—Mr. Jules Hurlig of the vaudeville firm of Hurlig & Seamon, of this city, who also devote

some of their time to face comedy shows, has joined Mr. Keith's faction in the vaudeville war for supremacy now waging here. The entrance of this firm into the combine gives it several additional houses in various parts of the country.

Sweet Naivete.

Among the interested visitors of the marine barracks at Washington on one occasion was a party of young girls from a Maryland town, friends of one of the officers of the barracks. They proved very much interested in everything pertaining to the life and discipline of the post.

"What do you mean by 'taps'?" asked one young woman.

"Taps are played every night on the bugle," answered the officer. "It means 'lights out.' They play it over the bodies of dead soldiers."

A puzzled look came to the face of the questioner. Then she asked:

"What do you do if you haven't a dead soldier?"—Philadelphia Ledger.

Couldn't Believe Him.

After a wordy argument in which neither scored two Irishmen decided to fight it out. It was agreed that immediately either said, "I've had enough," the fight should cease.

After they had been at it about ten minutes one of them fell and at once exclaimed:

"Enough! I've had enough!"

But his opponent kept on hitting him until a man who was watching them said:

"Why don't you let him get up? He says he's had enough."

"I know he said so," said the victor, "without relaxing his efforts, 'but he's such a liar you can't believe a word he says.'"—Glasgow Herald.

We Will Buy

You a Bottle of New Ligozone, and Give it to You to Try.

When you learn what Ligozone means to you you will wonder how you went without it. You will regret the time lost in treating germ troubles with remedies which have no effect on germs.

And it costs not a penny to know Ligozone. Simply tell us you want it and we will buy you a bottle gladly. Try it and let the product itself prove its power. All we ask then is that you tell others what the results are. Tell those who are waiting, as you waited, and who are losing what you have lost.

What Ligozone Is.

Ligozone is a tonic-germicide, the virtues of which are derived solely from oxide gases. No alcohol, no narcotic, nothing but gas enters into it. The process of making requires large apparatus, and consumes 14 days' time. The object is to so combine the gases with a liquid as to carry their virtues into the system.

The result is a germicide so certain that we publish with every bottle an offer of \$1,000 for a disease germ that Ligozone cannot kill. It destroys them because germs are of vegetable origin. But to the body Ligozone is exhilarating, vitalizing, purifying.

That is its main distinction. Common germicides are poisons when taken

internally. They are impossible, for they destroy the tissues as well as the germs. That is why medicine proves so helpless in dealing with germ diseases. Ligozone, on the contrary, acts as a remarkable tonic.

We Paid \$100,000.

For the rights to Ligozone, after thousands of tests had been made with it, after its power had been demonstrated for more than two years in the most difficult germ diseases. Conditions which had resisted medicine for years yielded at once to it, and diseases considered incurable were cured.

That was five years ago. Since then millions of people in every part of the world have shared in the benefits of this invention. Nearly every hamlet, every neighborhood, has living examples of its power. Now we ask you to let it do for you what it did for them.

Germ Diseases.

Most of our sickness has, in late years, been traced to germ attacks. Some germs—as in skin troubles—directly attack the tissues. Some create toxins, causing such troubles as Rheumatism, Blood Poison, Kidney Disease and nerve weakness. Some destroy vital organs, as in Consumption. Some—like the germs of Catarrh—create inflammation; some cause indigestion. In one of these ways, nearly every serious ailment is a germ result.

Such conditions call for a germicide, not for common drugs. Ligozone does what other means cannot accomplish. And it is wrong to cling to old ways when millions of people know a way that is better.

50c Bottle Free.

If you wish to know what Ligozone does please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and will pay the druggist ourselves for it. This is our free gift, made to convince you; to let the product itself show you what it can do. In justice to yourself, please accept it to-day, for it places you under no obligations whatever.

Ligozone costs 50c and \$1.

POLICEMAN SHOT AT FLEEING BOY

AND A RUMOR WAS CIRCULATED THAT A MURDER HAD BEEN COMMITTED.

Arrest Made in Connection With the Burglary of John Siegel's Bakery on January 30.

Doggie Feurriegel and Eddie Myers, two of the lads who came to grief because of their alleged connection with the dog delivery at the dog pound some two weeks ago, were again before Mayor McCleery Monday morning, this time on a charge of demolishing a glass case in front of Gus Kern's place and stealing some candy therefrom.

Feurriegel was arrested by Officers Dawson and Potts while Myers was brought in by Officers Potts and Howard. Both boys were in the vicinity of the scene of the crime and though they denied all connection with the offense they were taken down.

In a chase after one of the boys one of the cops fired his revolver into the air after commanding him to halt. This led to the report being circulated that a murder had been attempted in the South End.

Before Mayor McCleery both lads pleaded not guilty and their cases were held over until tomorrow. The boys testified that Joe McKenna, Charles and Frank Ankele were in the crowd and these boys will probably be brought in today. In connection with the burglarizing of the John Siegel grocery and bakery in the North End on the night

of January 30, Chief Sheridan Sunday brought William Allen, aged 21 years, to Newark from Washington Court House and lodged him in the city prison with a charge of burglary and larceny placed against him. Sylvester Patterson, a Newark young man, was also locked up Sunday night on a charge similar to that placed against Myers.

In police court, Allen pleaded not guilty and waived examination and was bound over to common pleas court under \$300 bond. It developed at the hearing that Patterson was not implicated in the burglary at all so the case against him was discharged. Allen told the court that Patterson was in no way connected with the burglary so the charge against him was dismissed.

Elwood Brand and William Donovan were brought in Sunday afternoon on a charge of breaking a window in the office of Dr. Sedgwick's office in the Hilbert & Schaus block. At the hearing it developed that the two men were in the hallway in front of Dr. Sedgwick's office when Donovan, who was drunk, fell against the door and his head struck the glass, demolishing it. Both pleaded guilty and were fined \$5 and costs each and Donovan was ordered to settle with Dr. Sedgwick for the damage done. This will cost him an additional \$5.

Edward Rostofor, a laborer, who is employed on the night shift at one of the factories near the B. and O. station, made a downy couch of one of the ice covered flower beds at the station early Sunday morning. Ros offered testified that he had been at work and had started home to get a midnight lunch. After that he remembered nothing. Officer Dawson found the man shortly after midnight Sunday morning and sent him to the city prison. He was fined \$5 and costs.

Dick Athey, a familiar police court character, violated a trust Saturday and fell off the water wagon which he had been riding for a few days. Athey was a prisoner at the stone-ple Saturday and was taken to the patrol station to do some janitor work. After finishing he was started on his way back to the prison but fell in with some friends who led him astray. He was found at 7 o'clock dead drunk. He drew \$5 and costs again but may be released to take a job that will keep him busy for a few days.

Indictments Against Five Athens Attendants—Workingman's Foot Experiment.

Athens, O., Feb. 25.—Returning indictments against five former attendants at Athens State hospital, three being for second degree murder, the grand jury, which has been considering the conditions at the asylum for a week, examining many witnesses, declared in its supplemental report that there is "too much politics in the institution, political obligations being satisfied at the expense of the patients' welfare." Hobart Reeder, Henry Harkins and C. F. Bobo were jointly indicted for second degree murder, charged with killing W. J. Barnes; Edward Hunter and William Blackburn, former attendants, were indicted for alleged assault and battery on patients. Reeder is also charged with the murder of Emmett Vickers in September, 1906.

Million More For Vets.
Columbus, O., Feb. 25.—About a million dollars a year will be added to the amount now paid Ohio veterans in pensions by the government, through the operation of the age pension law recently enacted, according to the estimate of Colonel W. L. Curry, the state commissioner of soldiers' claims. He figures that about 60,000 of the 100,000 Ohioans on the pension rolls are veterans of the civil war. The balance are widows or claimants from other wars. Of these veterans about 20,000 will profit by the law. It is estimated that their average increase will be about \$4 monthly. A service of 60 days qualifies. If the soldier has reached 62 years of age he is allowed \$12 a month. At 70 he gets \$15, and at 75 or over, \$20.

Was German Prince.
Piqua, O., Feb. 25.—Alexander Green, who last December celebrated his one hundredth anniversary, died of old age. Mr. Green was a descendant of the famous, noble and aristocratic German family, Von Greenfield. His father, Baron Von Greenfield, was master of the house of Hanover and Brunswick, the kuerfuerst or prince. Mr. Green was an officer in the Austrian wars in southern Spain and Italy, in the Grecian revolution in Turkey and in the German revolution of 1848-51. He came to Piqua in 1851.

Alleged Bigamist in Jail.
Sandusky, O., Feb. 25.—John W. Miller, an alleged bigamist, was found in his home at Huron by Constable Ebner of this city and was brought here and arraigned before Justice Dierch. He pleaded not guilty and was sent to jail, being unable to furnish \$500 bond. Miller last August married Miss Clara Slyker of Huron, and it is alleged that he was married to Samantha Graham in Starke county in 1892. She is still living and not divorced.

Workman's Foot Feat.
Steubenville, O., Feb. 25.—"Red" Ulrich, a Slavish workman at the Carnegie works furnace stock house, Mingo Junction, threw a stick of dynamite into a stove to see what would happen. The stove was blown to pieces, and the stock house was wrecked. Ulrich and Mike Lalech were blown some distance and fatally injured. Tony Lalech and three other workmen were seriously hurt.

Engagement Announced.
Cleveland, O., Feb. 25.—Formal announcement was made of the engagement of Miss Elizabeth Johnson, only daughter of Mayor and Mrs. Tom L. Johnson, to Signor Frederico Mariani, a wealthy Italian, who has been a guest at the mayor's home for eight weeks. The date of the wedding has not been set, but it will take place here.

Foul Play Suspected.
Sandusky, O., Feb. 25.—Coroner McClelland has obtained evidence which tends to show that Gule Lazzio, the Hungarian, whose dead body was found beside the Lake Shore tracks west of Venice, was robbed and murdered or else he was assaulted and his unconscious body laid on the track.

Bramley Arraigned.
Columbus, O., Feb. 25.—M. F. Bramley, head of the Cleveland Trinidad Paving company, charged with bribing a member of the board of public service, surrendered himself to the Columbus police and was released on bond. Mr. Bramley denied any knowledge of bribery in Columbus.

Miraculous Escape.
Bowling Green, O., Feb. 25.—Ten persons were severely injured and miraculously escaped death when a southbound car on the Toledo interurban railroad left the rails and completely turned over at Portage. The accident was caused by rails spreading at a curve.

Killed by Bull.
Gallopah, O., Feb. 25.—Morgan Beck, 62, a farmer living near this city, was killed by a bull in his barn. His neck was broken and his face crushed in, resulting in instant death. No one was with him when the accident occurred.

Senator Dolliver's Brother.
Fort Dodge, Ia., Feb. 25.—Victor B. Dolliver, 46, a brother of Senator Dol-

liver of Iowa, was found dead in bed. Dolliver went to bed apparently in good health, and when found in his room was lying on the bed as though he died while asleep. Dolliver was known as a campaign orator and a business man.

PRESENT BADGE TO REV. SCHINDEL

Sam Williams Camp Spanish War Veterans do Honor to Retiring Commander.

At Memorial Hall Sunday afternoon Sam Williams Camp No. 23, United Spanish War Veterans, held one of the best, and in point of members present, the largest meetings in its history, upon the occasion of showing the love and appreciation of their commander, Captain J. C. Schindel, who has the distinction of being the only chaplain under fire in the Cuban war. Rev. Mr. Schindel leaves his charge at St. Paul's Lutheran church for his new pastorate at Kansas City, about March 3.

Every office was filled and two new recruits were mustered in. All regular musters were mustered in by the retiring commander. Kindly remarks were made by many comrades expressing their regrets in the loss of their beloved commander, but Newark's loss is Kansas City's gain. The camp presented Mr. Schindel with a beautiful regulation past chaplain's badge. Captain Schindel showed his appreciation of the honor with a splendid reference to his associations with the members of Sam Williams Camp.

FAVORS PUBLICITY IN THAW TRIAL

NEW YORK CLERGYMAN SAYS IT IS BETTER FOR TRUTH TO BE KNOWN.

American Publishers' Association Hold Their Annual Banquet in New York.

New York, Feb. 25.—The 21st annual dinner of the American Newspaper Publishers' Association at the Waldorf-Astoria Thursday attracted over 300 publishers from all parts of the United States and Canada. St. Clair McKelway of the Brooklyn Eagle, was toastmaster.

The boxes were filled with wives and women friends of the publishers. President Herman Klöder of the New York Staats Zeitung, who presided, briefly welcomed all and read a letter of regret from President Roosevelt.

Sir Charles Macell, deputy speaker of the lower house of the Canadian parliament, offered on behalf of the Canadian publishers, a message of sympathy and good fellowship. He paid a tribute to the enterprise of the press of the United States, and spoke of the good feeling between Canada and the United States, alluding to King Edward and President Roosevelt as the two great peacemakers of the world.

Rev. Frank P. Hall, pastor of the Church of the Divine Paternity (Universalist) in this city, spoke on the topic "Fit to Print." He said:

"We need not be ashamed to publish what the people are not ashamed to do in private. Let us not suppress; let us have the facts.

"There has been a great deal said about the publication of all the facts in a certain trial which is attracting public attention now. I believe if the truth were told, we should find that not half the facts were told. If it were all told we might find that not only one but a number of men there are who make it the pleasure of their lives to drag down little girls and then, when they have started them on the way to hell, push them on. If this is true, let us know it, and then, having the facts, why you and I together as newspaper men and ministers will endeavor to raise such a public brainstorm as to make the lives of some of these men somewhat less interesting and playful than they have been in the past."

The speech was loudly cheered.
